1. Qualitative Information Regarding Quarterly Consolidated Financial Results

(1) Business Performance Overview

1 Performance Overview

During the third quarter of the fiscal year ending March 31, 2024, despite a gradual recovery in economic conditions, partly as the result of the effects of various policies, the Japanese economy remained susceptible to downward risks due to global monetary tightening, an unclear outlook for the Chinese economy and other factors, and to the impacts of rises in the cost of living and other factors.

Against this background, the Yakult Group worked to build awareness and understanding of the probiotics that constitute the bedrock of our operations while striving to communicate the superiority of our products. Guided by our long-term vision, Yakult Group Global Vision 2030, we pursued business activities and sought to improve our performance with the aim of evolving into a healthcare company that continues to contribute to the health of people around the world.

Following these efforts, consolidated net sales for the first nine months of this fiscal year rose 5.4% from the same period of the previous year to 387,721 million yen. Operating profit decreased 4.2% to 55,902 million yen, while ordinary profit increased 0.7% to 68,976 million yen. Profit attributable to owners of parent fell 6.4% to 43,339 million yen.

2 Overview by Segment

Food and Beverages (Japan)

In dairy products, Yakult focused on broadening recognition of the science behind its proprietary living *Lactobacillus casei* strain Shirota¹ and *Bifidobacterium breve* strain Yakult by utilizing evidence to proactively conduct grassroots value dissemination initiatives.

In our home delivery channel, we implemented initiatives to attract new customers for the fermented milk drink *Yakult 1000*, as well as *Yakult 400W*, which we released in a revamped form in September 2023. At the same time, we encouraged existing customers to continue their consumption of Yakult products. Meanwhile, we strove to improve our home delivery organization by airing TV commercials promoting the appeal of working as a Yakult Lady, including the diverse ways of working available to them. We also pressed ahead with efforts to conduct recruitment activities and create convenient working conditions for Yakult Ladies.

As for the retail store channel, we sought to increase revenue by creating sales spaces offering high visibility and conducting consumer campaigns with a focus on the *New Yakult* fermented milk drink series and *Y1000*.

In other beverages, we implemented a sales promotion campaign primarily for our *Toughman* series of energy drinks and the *Yakult no Oishii Hakkou Kajitsu* (Yakult Tasty Fermented Fruit Juice) beverage fermented with lactic acid bacteria in an effort to increase sales.

As a result of these efforts, consolidated net sales for the Food and Beverages (Japan) segment increased 6.6% from the same period of the previous fiscal year, totaling 191,614 million yen.

¹ Classified as *Lacticaseibacillus paracasei* strain Shirota as of April 2020.

Food and Beverages (Overseas)

Yakult's operations outside Japan commenced in March 1964 with the establishment of Yakult Taiwan Co., Ltd., and now the manufacture and sale of the *Yakult* fermented milk drink outside of Japan spans 39 countries and regions centered around 29 companies and one research center. In December 2023, average daily bottle sales amounted to approximately 24.01 million bottles. Average daily bottle sales from January to December 2023, which corresponds to the fiscal year for Yakult companies overseas, amounted to approximately 28.80 million bottles.

a. The Americas

In the Americas, *Yakult* and other products are manufactured and sold by Yakult S/A Ind. E Com. (Brazil), Yakult S.A. De C.V. (Mexico), and Yakult U.S.A. Inc.

At Yakult U.S.A. Inc., boosting support for sales through publicity campaigns and other initiatives, as well as making efforts to increase the number of stores stocking our products, resulted in a steady increase in sales volume.

In other regions within the Americas, we strove to increase revenue by reinforcing the sales networks for both the home delivery and retail store sales channels.

As a result of these efforts, consolidated net sales in the Food and Beverages (The Americas) segment increased 28.6% from the same period of the previous year to 61,452 million yen.

b. Asia and Oceania

In Asia and Oceania, *Yakult* and other products are manufactured and sold by Hong Kong Yakult Co., Ltd.; Yakult (Singapore) Pte. Ltd.; PT. Yakult Indonesia Persada; Yakult Australia Pty. Ltd.; Guangzhou Yakult Co., Ltd.; Yakult (Malaysia) Sdn. Bhd.; Shanghai Yakult Co., Ltd.; Beijing Yakult Co., Ltd.; Yakult (China) Corporation; Yakult Vietnam Co., Ltd.; and Yakult Danone India Pvt. Ltd.; among others. In addition, Yakult Middle East FZCO and other companies import *Yakult* and other products for sale.

At Yakult Vietnam Co., Ltd., aggressive efforts to develop sales promotion initiatives, enhance the home delivery organization and increase the number of stores stocking our products resulted in a steady increase in sales volume.

Guangzhou Yakult Co., Ltd. established the Meizhou Branch in Meizhou, Guangdong Province and began selling *Yakult, Yakult Light*, and *Yakult 50 Billion Light* in the retail store channel of the same branch in November 2023. This brought the number of sales locations in China to 53. However, its revenue has been impacted by various factors, including China's delayed economic recovery and a slowdown in consumption. The company is implementing a range of measures over the short- to medium-term to restore its performance.

As a result of the above, consolidated net sales in the Food and Beverages (Asia and Oceania) segment declined 4.9% from the same period of the previous year to 104,942 million yen.

c. Europe

In Europe, Yakult and other products are manufactured by Yakult Europe B.V., and sold by Yakult

Nederland B.V., Yakult Belgium N.V./S.A., Yakult Europe B.V., Yakult UK Ltd., Yakult Deutschland GmbH, Yakult Oesterreich GmbH, and Yakult Italia S.r.l.

In this region, we aimed for sustainable growth by conducting sales activities in a manner that takes advantage of heightened health consciousness and that is tailored to the markets in each individual country.

As a result of these efforts, consolidated net sales in the Food and Beverages (Europe) segment increased 3.4% from the same period of the previous year to 7,643 million yen.

Others

This segment encompasses Yakult's cosmetics manufacturing and sales, pharmaceuticals manufacturing and sales, and professional baseball team operations.

In our cosmetics operations, we focused on initiatives that would disseminate the value of our proprietary moisturizing agent *S.E. (Shirota Essence)*, which is the result of the extensive research on lactic acid bacteria we have conducted since our founding, in order to help customers realize their internal and external beauty and to increase the number of regular users of our cosmetics.

Specific examples of such activities include releasing revamped versions of four items from our *Parabio* series of high-performance basic skin care products in November 2023. In addition, we sought to raise product awareness for the *Parabio* series and *Lactdew* series of basic skin care products by airing TV commercials featuring the singer Chisato Moritaka and the makeup artist IKKO. Furthermore, we launched the new mail-order brand *Lactiful* in November 2023 and released two skin care products.

In our pharmaceuticals operations, we promoted awareness and the proper use of our products, particularly those specializing in oncology and related fields. However, with regard to our mainstay product, the antineoplastic drug *Elplat*, our revenue was impacted by medical institutions increasingly switching to available generic versions and by revisions to National Health Insurance drug prices in April 2023, which reduced prices for most of Yakult's pharmaceutical products.

We are currently progressing with systematic preparations to transfer the marketing authorization for *Elplat* and other drugs to Takata Pharmaceutical Co., Ltd., paying due attention to the interests of all parties concerned.

In our professional baseball operations, attendance increased as a result of proactive fan service engagements that included a variety of events as well as dissemination of a range of information.

As a result of the above factors, consolidated net sales in the Others segment fell 0.7% from the same period of the previous year to 30,606 million yen.

Yakult Honsha Co., Ltd. (2267) Financial Report for the 3rd Quarter of FY2023 Ended December 31, 2023

(2) Financial Position

Total assets at the fiscal quarter-end amounted to 828,334 million yen, an increase of 78,915 million yen compared to the previous fiscal year end, nine months prior.

Net assets increased 74,873 million yen from the previous fiscal year-end to 620,370 million yen. The main factors were an increase in foreign currency translation adjustments due to a weaker yen and an increase in retained earnings due to quarterly profit attributable to owners of parent. These factors outweighed the effects of repurchase of shares as treasury stock further to a resolution by the Board of Directors at its meeting held on November 14, 2023.

The equity-to-asset ratio was 67.5%, an increase of 1.0 percentage point from the previous fiscal yearend.

(3) Disclaimer on Future Outlook Including Consolidated Financial Results Forecast

The aforementioned forecasts are based on the information available to management at the time of announcement. Actual operating results may differ from these projections due to various factors in the future.

With regard to financial results forecasts, basic earnings per share have been affected by changes in treasury stock, but other forecasts remain unchanged since their announcement on November 14, 2023.

(Notes on Significant Changes in the Amount of Shareholders' Equity)

The third quarter of FY2023 (April 1 to December 31, 2023)

Further to a resolution at a meeting of its Board of Directors held on November 14, 2023, the Company repurchased 3,613,100 of its own shares as treasury stock, increasing the value of its treasury stock by 11,999 million yen. The purchase of shares of less than one unit increased the value of the Company's treasury stock by 2 million yen, the value of treasury stock declined by 114 million yen due to the payment of stock remuneration, and the value of the Company's treasury stock on December 31, 2023 was 93,815 million yen.

(Special Accounting Treatment for Preparation of the Quarterly Consolidated Financial Statements) Calculation of Tax Expenses

Tax expenses for the Company and its consolidated subsidiaries in Japan are calculated by multiplying profit before income taxes for the third quarter under review by the reasonably estimated effective tax rate after applying tax effect accounting to the profit before income taxes for the current consolidated fiscal year, including the third quarter under review.

In addition, income taxes-deferred are included in income taxes.

Yakult Honsha Co., Ltd. (2267) Financial Report for the 3rd Quarter of FY2023 Ended December 31, 2023

2. Changes to reportable segments, etc.

From this first quarter of the current fiscal year, we have changed the presentation of the pharmaceuticals business, which had previously been presented as a reportable segment, to include it in the Others segment. This was due to the decline in the financial significance of the pharmaceuticals business.

Segment information for the third quarter of the previous fiscal year has been prepared according to the segment categories after the change.
